

ECU remap suitable for Isuzu MUX (pre Nov 16)

Why not spec your Mux above & beyond the current model. Over a 25% improvement in power & torque. The real noticeable difference when driving these is the huge 36% power gain at 2950rpm & reduced turbo lag which greatly improves your vehicles drivability & towing performance.

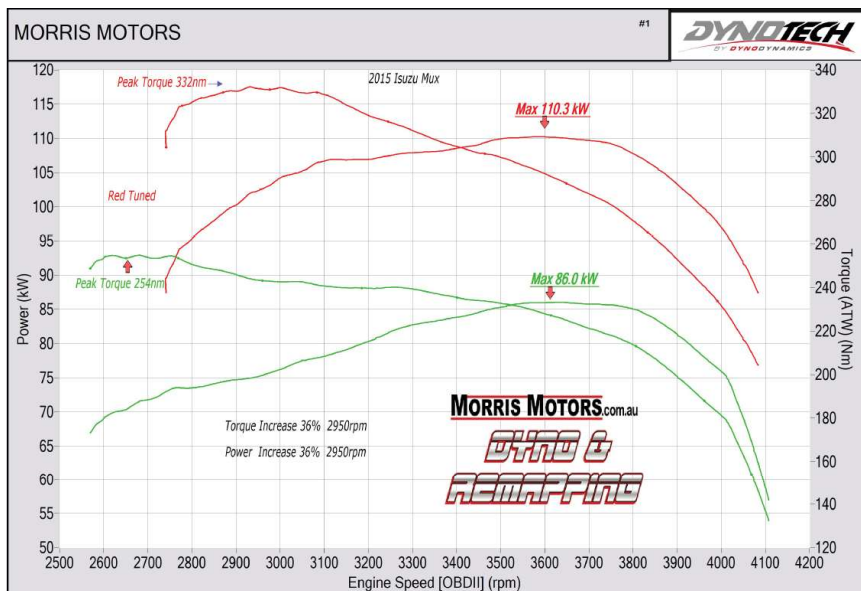

Dyno Performance Data

At Wheels	Standard	Stage 1
Power (kw)	86	110 (+28%)
Torque (nm)	254	332 (+31%)

Stage 1- Remap of Standard ECU

Note: Actual figures may vary depending on mechanical performance of individual vehicle

Stage 1 Tune with Standard Vehicle - Automatic

Our Mission

To provide you with the best possible performance result whilst still retaining the reliability of your vehicle.

Our ECU remapping process includes a full vehicle health check with our state of the art diagnostic equipment and Chassis Dyno (ALL Wheel Drive).

We Dyno test your vehicle checking current injector tolerances, air fuel ratio & boost pressures to name a few. Once we have given your vehicle a clean bill of health we then custom tune/remap the vehicle depending on our customers requirements.

When completed a Dyno sheet is printed for you, clearly identifying the gains of your vehicle's before & after performance.
