

ECU remap suitable for Mitsubishi Pajero 3.2L TD

The Pajero 3.2 Turbo Diesel custom tuning drastically improves the driveability of your vehicle.

With an extra 25% increase in power & torque it gives you the performance you need for towing & overtaking, transforming your Pajero into what it should be from standard.

VEHICLE DATA SHEET

Dyno Performance Data

At Wheels	Standard	Remapped
Power (kw)	90	113 (+25%)
Torque (nm)	278	350 (+25%)

Remap of Standard ECU

Note: Actual figures may vary depending on mechanical performance of individual vehicle

Remapped with Standard Vehicle

Our Mission

To provide you with the best possible performance result whilst still retaining the reliability of your vehicle.

Our ECU remapping process includes a full vehicle health check with our state of the art diagnostic equipment and Chassis Dyno (ALL Wheel Drive).

We Dyno test your vehicle checking current injector tolerances, air fuel ratio & boost pressures to name a few. Once we have given your vehicle a clean bill of health we then custom tune/remap the vehicle depending on our customers requirements.

When completed a Dyno sheet is printed for you, clearly identifying the gains of your vehicle's before & after performance.
