

# ECU remap suitable for Toyota Hilux CRD

The Toyota Hilux 3.0 Turbo Diesel responds amazingly to our custom remapping with power & torque gains in excess of 40% in the prime rev range.

This increase makes towing and overtaking effortless & takes drivability to a whole new level.

VEHICLE DATA SHEET

## Dyno Performance Data

At Wheels	Standard	Remapped
Power (kw)	83	104 (+25%)
Torque (nm)	261	375 (+43%)

Stage 1- Remap of Standard ECU

Note: Actual figures may vary depending on mechanical performance of individual vehicle

Stage 1 Tune with Standard Vehicle (Automatic) - Expect better from Manual Transmission

40% TORQUE  
25% POWER  
INCREASE

### Our Mission

To provide you with the best possible performance result whilst still retaining the reliability of your vehicle.

Our ECU remapping process includes a full vehicle health check with our state of the art diagnostic equipment and Chassis Dyno (ALL Wheel Drive).

We Dyno test your vehicle checking current injector tolerances, air fuel ratio & boost pressures to name a few. Once we have given your vehicle a clean bill of health we then custom tune/remap the vehicle depending on our customers requirements.

When completed a Dyno sheet is printed for you, clearly identifying the gains of your vehicle's before & after performance.
