

# ECU remap suitable for Toyota Prado CRD

The Toyota Prado 3.0 Turbo Diesel responds amazingly to our custom remapping with a 25% gain in power and torque.

This increase makes towing and overtaking in the low to mid rev range effortless & takes your drivability to a whole new level.

*\*Morris Motors has no affiliation with Toyota and services offered by our company may impact on your vehicle manufacturer warranty as well as the fuel efficiency and emissions of your vehicle.*

## Dyno Performance Data

At Wheels	Standard	Remapped
Power (kw)	87	109 (+25%)
Torque (nm)	290	360 (+24%)

Remap of Standard ECU

Note: Actual figures may vary depending on mechanical performance of individual vehicle

### Our Mission

To provide you with the best possible performance result whilst still retaining the reliability of your vehicle.

Our ECU remapping process includes a full vehicle health check with our state of the art diagnostic equipment and Chassis Dyno (ALL Wheel Drive).

We Dyno test your vehicle checking current injector tolerances, air fuel ratio & boost pressures to name a few. Once we have given your vehicle a clean bill of health we then custom tune/remap the vehicle depending on our customers requirements.

When completed a Dyno sheet is printed for you, clearly identifying the gains of your vehicle's before & after performance.
